

Captain Lisula's Crew

May 19, 2017

We swab the deck with "Arr" knowledge!

Science

We will continue our exploration of Earth's rotation. Students will construct a sundial/clock using a paper plate, pencil, and a small ball of modeling clay. They will practice reading skills using a STEMscopedia article. They will also complete a web quest activity.

These activities will conclude our Earth's Rotation unit. This information will not be tested.
